

Dear Family & Friends,

The motto for this year was "Touring our Relatives".
After our traditional ski vacation in Salden,
we crossed the "Pond" in Maui/June.

Karin was able to meet with her former Laboratory Director in San Diego, and we were also able to get together with our friend Pat for a short hike in Torrey Pines. And then on we went to San Jose to spend a few wonderful days with Colas and family.

In Maui we had a "contrast" program: reaching -35m while scuba diving and +3055m while hiking Haleakala.

On the return trip, we stopped in New York to visit my cousins, and had a wonderful time there.

We hope we will be able to see some more of You in the new year.
And thus, all that remains is to wish You:

Another flight brought us to Hawaii where we enjoyed two weeks of loving togetherness. We were able to attend the Shinnyo Lantern Floating Ceremony in Honolulu, as well as paying a visit to Pearl Harbor.

**Jake time to dream,
it is your highway to the stars.**

**Jake time to love,
it is the privilege of the gods.**

**Jake time to laugh,
it is the music of the soul.**

**Jake time to play,
it is the secret of perpetual youth.**

After a beautiful and hot summer in Switzerland, we drove down to Cannes in September to befittingly celebrate the 70th Anniversary of the Fifty Fathoms.

HAPPY HOLIDAYS AND ALL THE BEST FOR 2024
